

Bunny Bag Tutorial

Step 1. Cut (1) Lining 18"x6", (1) Outer Bag 18"x6", (2) cord Channels 5"x 1 ¼", (1) batting 6"x6", 2 Cords 15"

Step 2. Layer Lining & Outer Bag right-sides-together + Batting. Mark bunny ears. Shorten stitch length. Sew ears. Trim ears, clip inside curves. At short sides, opposite end to ears, press both fabrics under ¼" – pin but don't sew.

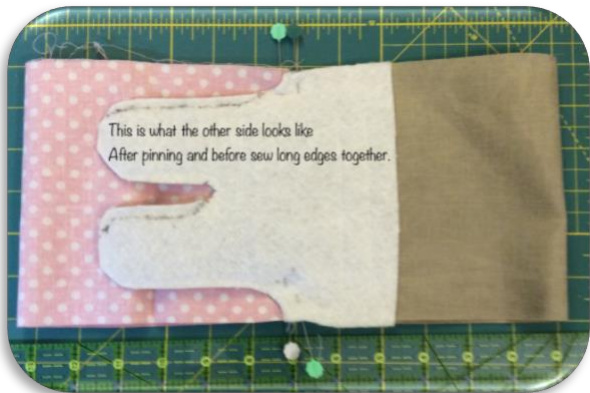

Step 3. Open fabrics right-side-up. Make cord Channels – press under ¼" on ea long side, then press under ¼". Sew ends. Position and pin Channels on Outer Bag – 1" from folded end and 1" from centre. Sew Channels on long edges – double stitch start and finish.

This Bunny Bag could be filled with:
 Easter Eggs
 A small jar of jam
 Some PlayDough
 A gift card
 Special bar of soap
 A small plant
 Make someone smile this Easter!

Step 4. With right-sides together, bring Lining to centre and Outer Bag to centre. Pin. Stitch both long sides and double stitch where Outer Bag and Lining meet.

Step 5. This is what the other side looks like after pinning and before sewing sides together.

Step 6. Turn Bunny Ears. I used a Clover Hera Marker to get a nice crisp turn.

Step 7. Turn Outer Bag – tuck Lining into Outer Bag.

Step 8. Your Bunny Bag is almost finished! Don't sew the Lining & Outer Bag together just yet. Mark the facial features.

Step 9. Facial features: First use a temporary marker and make dots to centre eyes, nose, mouth, whiskers and freckles! If you wish to add beads for the eyes and pompom for the nose, place a small scrap of batting behind the face to stabilize your stitches.

An effective face can simply be made with just a pen (a red pen makes a great little mouth).

After you have finished the face, pin Lining and Outer Bag together. Top stitch.

Reverse side of Bag – tail optional.

Step 11. Use safety pin to thread 2 cords together, through both Channels. Knot each cord. Then pull knot of one cord to the opposite side of bag.

Let the Easter Bunny fill your bag with something special and make someone smile!
